UNDER GRADUATE RESEARCH PROGRAMME

Ahmedabad University

About UGRP

- **The Undergraduate Research Programme (UGRP)** provides an opportunity to undergraduates from all disciplines to gain a lifetime experience through mentored research and other creative engagements in which students and faculty mentors collaborate in the design and implementation of projects and the dissemination of results
- It also aims to provide undergraduate students the opportunity to explore a new field of knowledge, including an interdisciplinary domain or to delve deeply into their area of study, via a faculty mentored research experience
- The programme enables students to consider research as a serious career path
- We have a large pool of faculty members engaged in various research projects; UGRP gives students an opportunity to be part of faculty research projects in a constructive way
- The Undergraduate College will organise a symposium where UGRP participants can present their research to the entire University community

"In addition to doing research at the University, UGRP participants may also be able to attend conferences and seminars on related research topics."

Benefits for students

- Build the CV by gaining research experience
- Gain job skills: technical, communication & collaborative skills
- Gain soft skills: personality development & self-confidence
- Apply classroom learning to a research problem
- Explore interest in a research field

Benefits for faculty

- Explore a new research area
- Collaborate with students
- Generate publishable research
- Generate results for further research funding

WHY RESEARCH?

By doing research, you will

- Gain hands-on experience
- Build skills and learn new methodologies
- Gain a better understanding of your discipline
- Explore potential careers in a particular field
- Form mentoring relationships with faculty members
- Collaborate with members of a research group
- Prepare yourself for a job or graduate study

"BE CURIOUS, IT MAY JUST LEAD YOU TO YOUR PASSION"

Design and carry out studies, surveys & experiments

Build Models & Prototypes

Read about your field of interest

Enhance Critical Thinking & Problem Solving skills

Work & Network with research professionals

Opportunity to work on industry driven projects

Opportunity to attend conferences & seminars

UGRP Process

- Research projects offered will be shared by the Undergraduate College from time to time
- Interested students should apply by responding by email to the faculty proposing the project
- When a student gets shortlisted, the faculty may conduct an interview to discuss the opportunity
- On successful completion of the project the student will receive a certificate from the Undergraduate College, if the duration of the programme is at least 30 hours
- An Undergraduate Research Project certificate will not be issued for a project for which one receives academic credit as an internship, Undergraduate Thesis, Capstone Project, BTech Project, etc.
