# The City as your Classroom

Ahmedabad University is located at the centre of the vibrant city of Ahmedabad, India's first World Heritage City. The location offers easy access to Ahmedabad's numerous intellectual, cultural, and social opportunities, including various inter-university, state, national, and international competitions, cultural events, talk shows, music and performance festivals, community activities, and more. The city boasts an abundance of theaters, museums, films, food, sports, heritage sites, and dynamic activities of vibrant city life, such as shopping and more. It is also located close to some of the fabulous historical and cultural sites of Gujarat and Rajasthan.

# The Interdisciplinary University

Interdisciplinary Learning | Practice Orientation | Research Thinking

The University, established in 2009, is rooted in the vision of one of India's finest educational foundations, the Ahmedabad Education Society, which was founded in 1935 by nationalist leaders. Programmes at the University range from bachelors to doctoral levels in humanities and social sciences, natural sciences, engineering, and management through its 14 Schools and Centres:

Amrut Mody School of Management  
Bagchi School of Public Health  
School of Arts and Sciences  
School of Engineering and Applied Science

GIFT International FinTech Institute  
The Climate Institute  
The Institute of Manufacturing and Economy

Ahmedabad Design Lab  
Centre for Heritage Management  
Centre for Learning Futures  
Global Centre for Environment and Energy  
International Centre for Space and Cosmology  
Sahyog: Centre for Promoting Health  
Stepwell Centre for Asian Futures  
VentureStudio

An urban university, Ahmedabad promotes independent-mindedness and diversity across all dimensions of its activity and helps students mature into critical thinkers who are analytically equipped, practically oriented, and contextually aware global citizens. The University provides a contemporary educational framework that brings liberal arts, sciences, and the professions to engage together in creating new knowledge for addressing complex challenges of the society and in offering majors that merge the boundaries of disciplines to prepare students for the new economy.

# The Learning Environment

**Ahmedabad University's Undergraduate Programme stands out for its holistic learning environment.**

This learning environment has the following elements:

- A focus on student's learning and outcomes
- Experiential learning and Interdisciplinarity
- Problem solving and team work
- Curated to building individual competencies
- Living the programme values
- A focus on pedagogy
- Developing an ability to integrate knowledge
- Learning to synthesise along with analysis and problem solving
- Research thinking
- Embedding learning into disciplines
- Mandatory Thesis/Capstone Project

Choose your own courses, come undecided, change your major or your programme

# Flexibility in Programmes

- To learn broadly and deeply
- To learn skills to solve complex problems
- To develop interdisciplinary perspectives
- To be a part of the unique holistic learning process

## **Bachelor of Commerce (Honours)**

## First Year at Ahmedabad

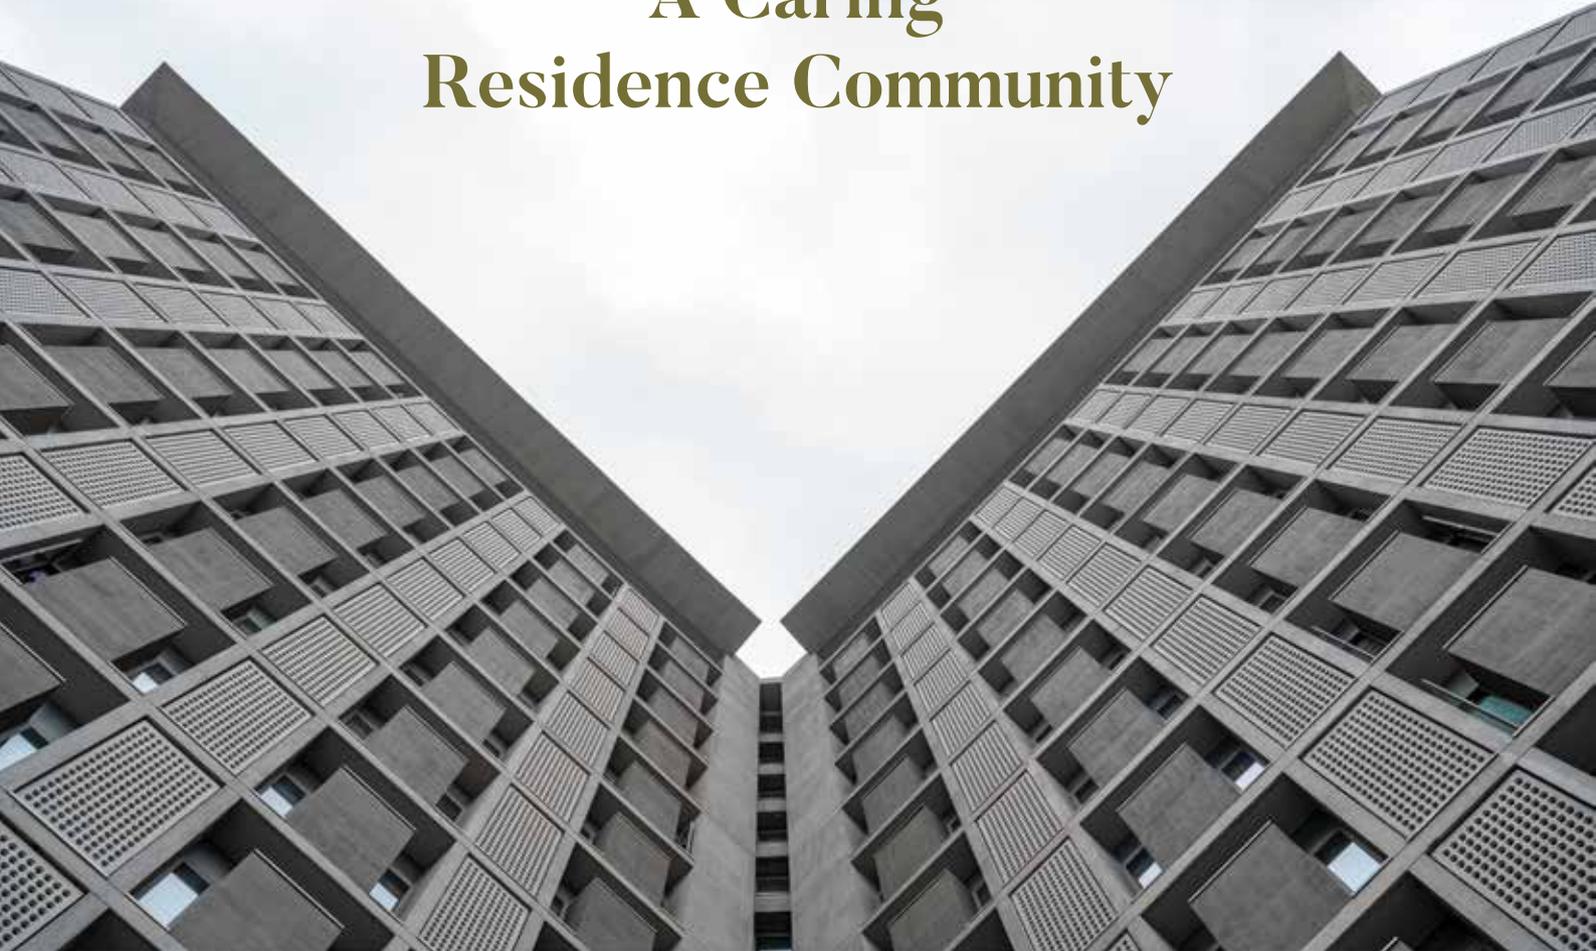

The first year academic experience involves Ahmedabad's signature Foundation Programme and specially placed Bi-Semester courses which are an introduction to the Majors and areas of enquiry. Our unique Foundation Programme comprises four Studios that every first year student takes on the key challenges that society faces today. The four studios address six domains that we want all of Ahmedabad students to engage with. They help build skills, perspectives, and engage with areas of innovation.

You will start taking semester long courses in your Major and fulfil General Education Requirements during the Bi-Semester (i.e., a specially crafted semester for first-year students that span the second half of the Monsoon Semester and the first half of the Winter Semester). The Bi-Semester is book-ended by two studios each.

The Foundation Programme is the cornerstone of Ahmedabad's highly curated and challenging interdisciplinary learning environment. The focus is around building a whole person through interdisciplinary inquiry of an issue through our specially designed experiential, practice oriented learning and research thinking.

The First Year at Ahmedabad is a unique and challenging exploration to find your own voice and to build critical thinking and analytical skills critical to a liberal arts education. This is complemented by learning by doing and learning to ask the right questions.

# A Caring Residence Community

The University Residences provide secure spaces for the University students to live in a homelike environment that is important for the growth and development of students. The University provides limited but high quality living in its Student Village.

The University Residences are an effort to provide a simple, comfortable, and secure living environment for those from out of town. It is also a lesson in building a community that has as its core value a respect for diversity, amongst others in ideas, ways of living, food preferences, cultural practices, language and religion.

## Culturally Diverse

# Explore your Interests

6 Student Associations

22 Student Clubs

Enhance your University experience by making friends, nurturing your interests, and growing your abilities and networks. Participate in an array of co-curricular activities, academic associations, and social and cultural events - designed, developed, and curated by our vibrant student community.

A group of three people, two men and one woman, are sitting on a grassy hill. They are dressed in casual attire, including jackets and sweaters. The background features a mix of green trees and some bare, brown trees, suggesting a transitional season. Several birds are seen flying in the clear blue sky. The overall atmosphere is peaceful and outdoorsy.

A fulfilling education extends beyond the classroom to the wider culture and engagements that student life is composed of. We create conditions that facilitate a vibrant student community, with a strong support system, easily accessible resources, numerous extracurricular activities and events, as well as opportunities to explore and immerse yourselves in the culture of the wider city of Ahmedabad.

# Your Journey of Discovery

There are many preconditions for you to excel at academic life: finding suitable lodging that allows a quiet work and living environment, settling into a new rhythm, making difficult decisions about one's career paths, and resolving health related issues, amongst others. The University makes sure that it provides all the guidance and support necessary for you to overcome these challenges, if any, and focus on your studies to reach your full potential.

## Wellness

It is our priority to ensure that we provide adequate support whenever any health-related need arises. The University provides health services including free medical consultations, mandatory health check-ups, Thalassaemia screening, blood donation, health talks, workshops, walk-in as well as online counselling and consultations, and health awareness campaigns.

- AES Cafe

# Circle of Care

## Faculty and Student led mentoring programme for First Year Students

- Meant to make a large University small
- Incoming students at the University come from different backgrounds and with different expectations. The Circle of Care extends support to new students by apprising and advising them about academic matters, career planning and non-academic issues.
- Groups of about 12-14 students are organised with a common Faculty Advisor and Student Mitr who is a senior University student.
- Student Mitrs are carefully selected and sensitised to be friendly, compassionate and empathetic.
- The groups are heterogeneous, formed with students from different Schools and Programmes of the University.
- Faculty Advisor (FA) also organises group meetings during the semester to help maintain the cohesiveness of the Friends Circle

- 
- Arboretum – forest within a city
  - Building Arid-Biodiversity on Campus
  - Expanding Solar Infrastructure
  - Water Harvesting and Stepwell
  - Water Recycling Facility
  - Reduction of the use of Plastic on Campus
  - Electric Vehicle Charging Stations
  - Waste Recycling and Bio-Composting Station
  - Shared Transport Facility to reduce emissions

The Campus is constantly finding ways to reduce its carbon footprint and become environmentally responsible. It also believes in demand side management by nudging its community to undertake environmentally friendly practices. Become part of this evolving endeavour.

# Reducing our carbon footprint by embracing conscious choices.

The University Centre, designed by Stephane Paumier Architects, has won the Royal Institute of British Architects Award for International Excellence 2024 for demonstrating visionary thinking, excellence of design and execution, and social impact. The University Centre has also been awarded Gold Rating by the Indian Green Building Council for achieving the Green Building Standards.
