Ahmedabad MBA

The Ahmedabad MBA is an interdisciplinary programme that combines liberal education and analytical rigour. Our MBA graduates are not only academically sound; they gain real-world experiential learning, and an appreciation of social, cultural, and ethical contexts within which a business operates. Our MBA programme prepares students to be not merely better managers, but better leaders, better citizens, and better human beings.

The combination of interdisciplinary learning, analytical mindset, and liberal education breadth of vision ensures that we prepare leaders of outstanding character who do not just build cutting-edge organisations, but strive to create a better world.

Experimental Learning through Route Camp

The distinguishing element of the Master of Business Administration programme is the Route Camp.

The Ahmedabad MBA programme stands out for its unique combination of liberal management education and real-world experience. The Route Camp is an academic project that spans the 2-year MBA programme. The sponsoring organisation selects a real business issue that needs solving. The organisation and the university together develop the project objectives, expected outcomes, and deliverables.

A group of MBA students, guided by a faculty mentor, then work on the project and develop solutions to address the business issue. Students work towards a solution that is interdisciplinary, innovative, impactful, and implementable. At the end of the project, the students present their analysis, outcome, and recommendations to the company.

Three Pillars of our Ahmedabad MBA

Learning

Interdisciplinary learning is a key pillar of our MBA programme. Students of course learn traditional management subjects; but they also have the option to take courses as diverse as climate change, environment, ethics, psychology, philosophy, heritage, and computer science. This makes them well-rounded leaders, aware of world issues, with a sense of responsibility to all stakeholders, not just driving shareholder value.

Doing

The MBA programme is built on the principle of doing, beyond learning. Experiential learning is at the heart of the curriculum. Our students work with real companies – through our unique Route Camp projects – for the entire duration of their MBA, with the opportunity to put their learning to practical use in real-life settings.

Becoming

The Ahmedabad MBA programme transcends Learning and Doing, to focus on Becoming – our graduates are trained to develop a moral compass, a focus on not simply doing things right, but doing the right things. They become aware of the world issues and develop a moral compass for doing business in an ethical manner, that does not just benefit the organisation but the community, and the world.
