## ABOUT

# Ahmedabad University

Ahmedabad University was founded in 2009 by Ahmedabad Education Society (AES), a non-profit educational foundation in Ahmedabad. Ahmedabad University is envisioned to become a global leader that provides liberal arts education within a research university. Interdisciplinary curriculum, experiential learning environment, and research define an Ahmedabad education. We are reimagining the classroom beyond the physical walls and focusing on the holistic development of each student in an engaging and nurturing environment.

Located in the centre of a vibrant and entrepreneurial city, our education is contextually rich and globally connected, attracting around 4000 students from over twenty Indian states and seven countries.

Ahmedabad University is dedicated to fostering continuous progress of self and society. We are transforming higher education in India. Our graduates bear the capabilities, attitudes, and values to excel in whatever field they choose to pursue around the world.

We recognise that social challenges and job opportunities are occurring at the intersection of various axes of influence, defined by disciplines (data, materials, biology, and behaviour), nature (air, water, forests, and land), sectors of impact (health, transport, energy, and education), and society (individual and community). Accordingly, Ahmedabad University guides students on how to learn through interdisciplinary academics and real-life experiences that traverse these intersections. The research programmes at the University also embody this integrative philosophy.

We prepare leaders of outstanding character who will contribute significantly to their fields of study and practice. The University promotes independent-mindedness and diversity across all dimensions of its activities and helps students mature into critical thinkers who become analytically equipped, practically oriented, and contextually-aware global citizens.

Ahmedabad's dynamic learning environment is based on cross-disciplinary linkages between the arts, sciences, and professional disciplines. This forms the bedrock of the intellectual enterprise at the University and our research that builds knowledge for solving society's challenging problems. Our concern remains the social, economic, and ecological development of local, national, and international communities.

## Accreditations and Awards

- Recognised by the Government of Gujarat as a Centre of Excellence
- Accredited with an 'A' grade by the National Assessment and Accreditation Council (NAAC)
- Awarded a 5-star rating, the highest awarded in the Gujarat State Institutional Rating Framework (GSIRF) for 2021-22 and 2023-24, by the Knowledge Consortium of Gujarat (KCG), Department of Education, Government of Gujarat.
- Recognised by the UGC under Section 12(B) of the UGC Act, making it one of the few private research universities to have been awarded this recognition for select research universities
- Recognised as a Highly Commended University for Teaching and Learning Strategy of the Year in the Times Higher Education (THE) Awards Asia 2023
- Awarded the Association to Advance Collegiate Schools of Business (AACSB) Innovations That Inspire Award 2023 for its Foundation Programme

## Message from the Office of the Dean

Graduates of Ahmedabad University develop multidisciplinary perspectives and knowledge to tackle complex problems. Therefore, they start contributing to organisations from the day they join them. Students at the Amrut Mody School of Management (AMSOM) benefit from being part of such a university, taking interdisciplinary courses and breaking out of traditional academic silos. Hands-on experiential learning, innovative pedagogical tools, and extensive and continuous interaction with industry ensures that AMSOM graduates are ready to become successful managers.

AMSOM faculty, with PhDs from the top Indian and foreign universities, as well as industry experience utilise the entire range of pedagogical resources from the Harvard Business School Publishing (which range from cases to simulations), the wide range of databases that our library subscribes to, and the upcoming Bloomberg Lab with 12 terminals. Classes focus not just on understanding management concepts, but on the examination of relevant and recent industry matters, and discussions and debates about ethical and societal issues.

AMSOM hosts three sets of flagship events around the year: the Leadership Series, the Conversation Series, and the Leading Legacies Series, which enable students to interact with and learn from industry leaders, policy makers, and entrepreneurs respectively.

In addition to compulsory summer internships that all AMSOM students undertake to gain valuable industry experience, our MBAs go through a required 15 month long Route Camp project that engages with industry and societal problems over an extended period to enhance consulting and implementation skills. Undergraduate students also complete a multidisciplinary Capstone project where they apply their classroom learning to real world problems. Finally, students of the five-year Family Business and Entrepreneurship programme (Integrated BBA+MBA) undertake a six-month internship, and an international immersion.

With deep knowledge of business concepts, ranging from Accounting and Finance to Technology and Operations, and an appreciation of ethical and social matters, AMSOM graduates are poised for success when they seek employment or start their own businesses.

I confidently recommend the 2026 graduating batch of students, who will be effective and socially responsible managers, for industry placements/internships at your organisations. I look forward to your active participation in the placement process at the Amrut Mody School of Management.

**Professor Shobha Das**

Dean

Amrut Mody School of Management

PhD (University of Minnesota)

# Amrut Mody School of Management

The School currently offers a multitude of programmes, from undergraduate to doctoral, short and long-term certificate and diploma programmes. The School works closely with industry partners to provide a balance between rigorous practice and strong conceptual education. It strives to bring interdisciplinary education to management students to enable them to develop innovative solutions for contemporary problems and impact societal change.

## UNDERGRADUATE PROGRAMMES

The Undergraduate programmes provides skills, promotes citizenship, builds courage, and inculcates responsibility. It is aimed at providing broad and deep education that will equip the student to navigate the world in which she lives and become an agent of change in the betterment of her own life and that of the society. It is the ambition of the University to facilitate crossover of disciplinary learning. A transdisciplinary problem definition and solving, critical thinking and analytical skills, intellectual and emotional depth, and an exposure to the world of disciplines from humanities to life sciences is the foundation of an Ahmedabad education. Undergraduate education, for many, is also a terminal degree hence, it must provide a pathway to livelihood.

### Bachelor of Arts (Honours)

The Bachelor of Arts (Honours) with a Major in Economics introduces students to microeconomics, macroeconomics, statistics, econometrics, history of economic thought, and a study of the Indian economy. In addition, students choose from a wide range of electives and learn more about specific areas of Economics such as development, environment, finance, and labour economics. Due to the interdisciplinary nature of the undergraduate programme at Ahmedabad University, students also take classes in other subject areas and thus have an opportunity to learn alternative theories and pedagogies. The Programme will provide an early opportunity for students to learn to collaborate with peers. This is because during the Foundation Programme, and subsequently throughout the curriculum, there will be a strong emphasis on project-based learning.

This degree equips graduates for diverse career paths spanning business, the civil service, the corporate sector, government, investment banking, journalism, media, technology companies, non-governmental organisations, think tanks, and research institutions.

### Bachelor of Science in Management (Honours)

The Bachelor of Science in Management (Honours) programme, erstwhile administered as the Bachelor of Business Administration (Honours) programme, is more rigorous, interdisciplinary, and combines scientific thinking with management principles. The industry-relevant programme incorporates deep connections with other disciplines at Ahmedabad University and equips students to take on real-world challenges in the future. The programme involves strong scientific enquiry and technology to complement managerial art, preparing graduates to become successful professionals in this VUCA (Volatile, Uncertain, Complex, and Ambiguous) world. This unique programme brings management, science, and liberal arts education together to equip our young students with methods and practice to build a successful career.

The programme prepares graduates to work with corporations, pursue advanced studies, grow their family businesses, become entrepreneurs, or move into other professional activities, including civil services.

## **Bachelor of Commerce (Honours)**

The Bachelor of Commerce (Honours) programme provides an education in commerce with focus on accounting within the context of an interdisciplinary education. The programme is designed to develop a holistic perspective on commerce and thus equip students with an understanding of modern, sustainable business milieus. With the adoption of advanced technology, there has been a paradigm shift in the field of accounting and its allied areas where, in addition to being knowledgeable in accounting practices, an accounting professional needs to be a skilled communicator, able to ethically apply accounting processes, and to integrate them with technology. The unique design of the School Core and the General Education Requirement at Ahmedabad University will allow students to take courses in accounting along with a wide array of elective courses which include Marketing, Finance, Operations, Human Resources, Supply Chain, Ethics and Law, Business Analytics, and Organisation Behaviour.

The programme prepares competent accounting professionals who can work in an increasingly complex environment with the help of the broad knowledge of business. Students learn various facets of financial accounting, cost and management accounting, auditing, business and personal taxation, financial statement analysis, along with a broad understanding of the different dimensions of finance, including financial management, banking, financial markets and services.

## **Bachelor of Commerce (Professional)**

The Bachelor of Commerce (Professional) programme, is the first of its kind in India which is specifically designed for students who are pursuing or intending to pursue, concurrently, professional qualifications like Chartered Accountant (CA), Association of Chartered Certified Accountants (ACCA), Company Secretary (CS), Cost and Management Accountant (CMA), Certified Public Accountant (CPA), Certified Financial Planner (CFP), and Chartered Financial Analyst (CFA), along with a BCom (Honours) degree. It is a programme that integrates, within an academic programme, both, the theoretical aspects of professional education, as well as formal technical and practical training in the form of internships/articleships.

The programme enables students to excel in both their professional courses and the School's demanding undergraduate education thereby earning an undergraduate degree as well. This includes a range of courses tailored to complement students' learning requirements in their professional courses.

## **The BxMx Programme (Dual Degree)**

The BxMx Programme allows a student of Ahmedabad University to pursue a bachelor's and a master's programme in a five-year period. Unlike the five-year Integrated Master's Programmes in one discipline at the University, The BxMx Programme is a dual degree programme that allows an undergraduate student to study a bachelor's programme in one discipline while completing a master's in another. This allows a bachelor's student from one Programme and one School to seamlessly move into a master's programme in the same School or another School.

## The Family Business and Entrepreneurship Programme

The five-year Family Business and Entrepreneurship programme focuses on identifying goals, devising strategies for facilitating growth, and creating experiential learning through concepts like bootstrapping, business canvas, prototyping, and building proof of concept. Students of this programme are awarded both BBA and an MBA degree upon completing the credit requirements. It provides training in foundations of management to enable students to take up leadership roles in managing, scaling up, a turnaround of a family business or crafting a business plan to start an enterprise within or outside a family business. It focuses on learning to build and execute strategies for facilitating organisational change through experiential learning. It provides an opportunity to build a new product or service-based business by becoming a fellow at VentureStudio, Ahmedabad University's incubator, while earning credits.

Students are exposed to multiple short-duration internships every year at organisations as diverse as NGOs to corporates, which fosters personal development and enables them to gain first-hand exposure to working in the real world. The programme's unique elements include a semester-long industry internship and international immersion.

## Integrated Programme in Technology and Management (BTech + MBA)

The interdisciplinary nature of today's world demands professionals who not only possess engineering proficiency but also have the ability to lead strategic decision-making. The world needs leaders capable of solving engineering problems while understanding their managerial, technological, and social contexts. Ahmedabad University's five-year Integrated Programme in Technology and Management allows students to complete a Bachelor of Technology degree (in Chemical and Environmental Engineering, Computer Science and Engineering, Electrical and Electronics Engineering, or Mechanical Engineering) and a Master of Business Administration programme in five years. The programme provides students with a strong foundation in core and technical aspects of engineering and science, taught at the School of Engineering and Applied Science, along with managerial competencies developed at the Amrut Mody School of Management. This integrated knowledge in technology and management enables students to navigate technological, managerial, and societal challenges, equipping them to become critical thinkers, problem solvers, and innovation drivers.

## GRADUATE PROGRAMMES

The Graduate programmes at Ahmedabad University provide deep, interdisciplinary education that builds skills and perspectives in students. With an exemplary faculty guiding them, students learn through a practical interdisciplinary approach. In-class sessions are complemented by opportunities to learn through projects, industrial visits, field visits, international collaborations, and participation in workshops, conclaves, fairs, and specialised guest lectures by leading experts from industry and academia.

We offer access to courses from other schools and partner universities. The choice-based credit system empowers students to take ownership of their learning process. Curricula across programmes are continually reviewed and updated to ensure that they remain relevant and contemporary.

### Master of Science in Economics

Economists today have to be equipped with interdisciplinary skills to address problems in the society and economy. Students will be trained in theory and data analytics to critically analyse and evaluate real world problems in micro and macro contexts concerning human and firm behaviour in the domains of finance, industrial organisation, education, health and environment. The MS Economics programme provides training in applying economic models and tools to the changing needs of corporates, the financial sector, and policy institutions.

With a rigorous exposure to advanced economics concepts, students can start a career as analytical economists in corporate or policy organisations, look for opportunities in finance, or pursue doctoral education. The programme provides an opportunity to develop expertise in financial economics with a pedagogy that integrates data analytics with modern behavioural and institutional aspects of finance. Our two-year programme builds skills in data sciences, analytics, and technology along with courses at the frontier of economics and research therein. Our unique studio courses and internship programme offer exclusive problem-solving experience and deep engagement with industry.

### Master of Science in Quantitative Finance

The Master of Science in Quantitative Finance programme at Ahmedabad University is a unique programme in the country, for it focuses on imparting advanced quantitative techniques required for students intending to pursue a career in Financial Modelling, Asset Management, Risk Mitigation, and Investment Banking. The programme offers ample avenues for the students to make the most out of the broader liberal arts university ecosystem that encourages and nurtures interdisciplinarity.

This programme is a confluence of mathematics, financial markets, and economics. Aligned with industry demands and expectations, the programme provides a deep understanding of the mathematical underpinnings of financial markets.

The MSQF curriculum constantly changes to meet the financial marketplace's evolving needs and keeps students abreast of recent trends, milestones, and developments. The students of the programme exhibit proficiency in Financial Modelling, Portfolio Management, Mathematical underpinnings of computational methods, Programming skills in Python, R, C++, Econometric Modelling, Machine Learning in Finance, and Data Visualisation.

## Master of Business Administration

The Ahmedabad MBA is an interdisciplinary programme that combines liberal education and analytical rigour. Our MBA graduates are not just academically sound; they gain real-world experiential learning and an appreciation of social, cultural, and ethical contexts within which a business operates. Our MBA programme prepares students to be better managers, leaders, citizens, and human beings.

The combination of interdisciplinary learning, analytical mindset, and liberal education breadth of vision ensures that we prepare leaders of outstanding character who do not just build cutting-edge organisations, but strive to create a better world.

Structured on the pillars of interdisciplinary learning, experiential learning, and business ethics and morals, the Ahmedabad MBA programme stands out for its unique combination of liberal management education and real-world experience. It offers unique elements like the Route Camp Project, an academic project spanning the programme duration where students work on organisation-sponsored real business issue that needs solving and lab courses on communication, analytics, and behavioural activities.
