Career Development Centre

Ahmedabad  
University

Four Schools | Four Centres | Over 4000 students

16 Programmes across Undergraduate, Graduate & Doctoral levels

Located in the heart of Ahmedabad city: an amalgamation of heritage, tradition and development

Ahmedabad University is dedicated to rigorous academic pursuit with a focus on building enquiry as a value through interdisciplinary learning. We provide a liberal education that prepares students to think deeply and creatively across fields, and emerge as independent thinkers and compassionate leaders, who can innovatively engage with the complex challenges of our society.

As a research university, we are committed to the discovery of ideas that enhance our understanding of the issues that face our society. We are building an environment where students and professors explore by reflecting, challenging each other's views and assumptions through data and rigorous discussions and collaborate to develop insights. This learning process is mediated by projects, fieldwork and a belief that good theory leads to good practice.

### **Our purpose is “to foster continuous progress of self and society.”**

The University's Mission is:

- To prepare leaders of outstanding character who will contribute significantly to their fields of study and practice
- To build an evolving learning environment that is based on cross-disciplinary linkages among the arts, sciences, and professional disciplines, combined with rigour and reflection
- To actively advance research and intellectual enterprise at the University and in society
- To promote independent-mindedness and diversity across all dimensions of the University
- To generate knowledge that provides a context of learning and contribution to India and the world communities
- To actively advance the social, economic, and ecological development of local, national, and international communities
- To catalyse students to mature into critical thinkers who are analytically equipped, practically oriented and ethically driven

### **OUR FOUNDATIONS**

Established by the Ahmedabad Education Society (AES) in 2009, Ahmedabad University is the Society's most ambitious endeavour thus far. The Ahmedabad Education Society was founded over 80 years ago, at the behest of Sardar Vallabhbhai Patel, the first Home Minister of India, by illustrious leaders like Kasturbhai Lalbhai, the doyen of the Indian textile industry and Ganesh Mavalankar, the first Speaker of the Indian Parliament, the Lok Sabha. AES was created to advance education in Gujarat and eventually, throughout India and the world. Over the course of its history, AES and its leaders have played significant roles in the founding of national institutions like the Indian Institute of Management Ahmedabad, the National Institute of Design, the Physical Research Laboratory and CEPT.

## About the Career Development Centre

The Career Development Centre at Ahmedabad University is built to help students make decisions about their future. Whether it is higher education or professional opportunities, the Centre helps students plan their lives after University.

We regularly organise workshops to help students with their Résumés, build their confidence in oral and written communication, preparing them through aptitude and analytical tests, group discussions, and personal interviews, along with grooming and etiquette workshops to develop well-rounded, future-ready, professionals.

But this process cannot be complete without the rigour and vigour in academic life that comes with an active engagement with the industry inside and outside the classroom.

This is why we welcome collaborations with industry stakeholders in the form of lecture series, curriculum development, student projects, corporate events apart from research, consultancy and other forms of collaborative associations.

Internships and hiring opportunities of young talent

Collaborations in the form of guest lecture series, curriculum development, student projects and corporate events

Executive Education and Management/Leadership Development Programmes for Industry professionals

Industry research, consultancy and collaborative projects

**Ahmedabad  
University**

## Objective of the Collaboration

To promote interaction between Ahmedabad University and Industry in mutually beneficial areas and to advance academic and research partnership
